### A fun skating rink with a sustainable development theme.

This Winter the skating rink on the 1st floor of the Eiffel Tower echoes the COP21. The skating rink's bar is made from wood pallets and recycled material. A 6m Eiffel Tower made from wood adds to the theme. The perfect spot for memorable photos!

What's more there are 3 wooden bikes on the edge of the pistes where visitors can have fun while they are waiting - the faster you pedal, the more the suspensions light up.

### ... open to everyone

Skates (sizes 25 to 47) are free for visitors\*. And there are scooters and sled-chairs for the little ones. Disabled people can enjoy the rink too, with easy access and sled-chairs for adults.

### A bar at 57m altitude

A bar on the edge of the skating rink, made from pallets and recycled material, is accessible to both spectators and skaters! New this year: lentil and bacon soup, pan-fry of Savoie Winter specialities, or the Bio Seed Bretzel for 3€.

### Discover - or rediscover - the Eiffel Tower

Skating is a fun and sporty activity for a day or evening out with family or friends. The skating rink is another good reason to visit the Tower, with the other new attractions: the glass floor on the 1st level, the museographic circuit, the immersive film, etc.

*\*personal skates are not permitted. Note: as for all skating rinks, gloves are compulsory.*

The Eiffel Tower is open every day and evening from 9.30am to 11.45 pm.
